BUSINESS CHALLENGE

In the electrical and electronic markets, it seems almost daily the standards or compliance criteria are changing, which has a direct impact upon how you sell your product. How can you keep track of the changes and the impact upon you? What if someone new joins your organization? What legal requirements will you have to comply with should you wish to enter a new market?

SOLUTION

What is Electrical and Electronics Training?

Electrical and Electronics training focuses on providing information on compliance topics and technologies that affect your products and markets.

Sessions are available to help you and your company learn more about product safety, quality and performance as well as regulatory and compliance requirements.

These are applicable to a variety of importers, manufacturers, retailers and operators of products such as:

- IT/Telecoms equipment
- Household appliances
- Transportation equipment
- Medical devices
- Electronic components
- Industrial equipment
- Equipment used in potentially explosive environment
- Defence and Aerospace equipment

What are the key benefits?

- Save months on trawling through websites and documents by requesting bespoke training fitted to your specific needs.
- Attend an online seminar (webinar) to get regular updates on the latest compliance requirements.
- If you wish to be first to market, you need knowledge of technical barriers to trade.
- Ensure you are first to know the trading conditions prior to spending monies on production and tooling.
- Reduce product failures in the field, recalls and complaints by attending courses on how to design compliance and performance into your products.
WHY CHOOSE BUREAU VERITAS?

Reputation - For over 100 years, we have worked successfully with leading electrical and electronic product manufacturers, importers, retailers and operators around the world to help them better manage risk and assure regulatory compliance.

Worldwide Locations - With dedicated and experienced trainers in every major sourcing area worldwide, we offer you the convenience of global knowledge with local trainers. We also offer webinars to keep you up-to-date with the latest developments.

Technical Knowledge & Leadership - Our staff participate in the development of international, industry and regulatory standards worldwide, keeping you, and us, at the forefront of changes in the various approvals requirements. Bureau Veritas is one of the world’s leading training organizations. We provide over 3500 training courses in Quality, Environmental, Health and Safety and Social Accountability Management systems, in more than 70 countries around the world.

Personalized Service - At Bureau Veritas, we are committed to meeting your evolving needs and helping you anticipate new market trends. We offer you customized and specialized services to meet your knowledge/training needs throughout your supply chain. Providing you with the highest levels of service is a priority for us.

OUR APPROACH

Our approach is personal and flexible. It begins with understanding your training objectives and goals throughout your organization. Throughout, we take a solutions-oriented approach to be your partner in training.

• Our process begins with understanding your training needs.
• Our instructors work directly with you to identify training options.
• You can select from existing programs or customize a program to meet your needs.
• Information is presented in a fresh and engaging manner, using practical ‘real-life’ situations.
• Training can take place at your location or ours.
• Providing the technical and regulatory content necessary for your employees to be effective is our objective.

Some of the courses we are currently running include:

• Access to international markets (CB Scheme, CE marking, GOST-R, CCC, CE Marking, FCC, NRTL, BSMI)
• ATEX
• Eco-environment (RoHS, WEEE, EuP, REACH)
• Technical and technological expertise (Electromagnetic Compatibility, Electrical Safety, Radio Frequency)
• Testing Explained (How to manage, control and calibrate testing equipment)
• Inspection, Audit & Assessment (Production Inspections, Factory Assessments, QC 08000 (HSPM), SA 8000, ISO 9001:2000, ISO 14001, OHSAS 18001)

FREQUENTLY ASKED QUESTIONS

Who will instruct my seminar?

Depending upon your specific needs and product line, we will match you up with the appropriate technical professional within our company to deliver your seminar. Our instructors are experienced in their fields with many participating in industry and technical groups within their specialties.

I’m not ready to hold a private training seminar for my company. Do you offer any other training options?

Yes, we do offer a number of seminars on current topics for our clients throughout the year. These are held in a specific location and on specified dates. Sessions are attended simultaneously by our clients from a variety of companies. We also offer online training courses to provide an overview or an introduction into a subject matter or new legislation such as RoHS, EuP or REACH. Check our website for updated information.
